

ENVIRONMENTAL DOCUMENTATION

KZF is committed to sound, responsible design. We must be aware of the effects that built-form has on the environment. Our Transportation and Municipal Group can assist you with the coordination of environmental document preparation. We have extensive experience in the preparation of environmental documentation and the coordination of cultural and archaeological reports, environmental justice, the preservation of historic architecture, demographic and geological services.

Services

Environmental document preparation

CE

EA/EIS

4(f)

106/Cultural Resource Coordination

NEPA process/coordination

Public Involvement

Alternative analysis

Butler County Veterans Highway *Client: Butler County TID, Ohio*

KZF provided an environmental impact statement for the relocation of SR 129 including environmental studies, a corridor study with alternative alignments and preliminary engineering for 8.7 miles of new highway alignment from I-75 to the City of Hamilton, OH.

HAM-50-17.53 River Road Widening and Partial Relocation *Client: City of Cincinnati, Ohio*

KZF provided preliminary engineering, alternatives analysis, environmental investigations and needs assessment to widen this narrow and crash-prone stretch of US 50 within the historic Cincinnati Sedamsville community. Extensive cultural resource investigations, public involvement and coordination were completed within Section 106 of the National Historic Preservation Act. Environmental documentation included an Individual Section 4(f) Evaluation and Level 4 Categorical Exclusion.

Our Environmental Group works with Transportation Planners and Engineers to ensure accurate documentation of required environmental procedures

Jon Wiley, PE **Senior Traffic Engineer**

Aside from his breadth of knowledge in Traffic Engineering and Planning experience, Jon is also experienced in EA/EIS, CE and 4(f) Environmental Document preparation.

Brad Ackel, PE **Civil Engineer**

Besides his experience in Traffic Engineering and Design, Brad is also skilled in the preparation of both CE, 4(f), and 106 Environmental Documents.
